parks, recreation and open space plan

Planning Process

Planning Process

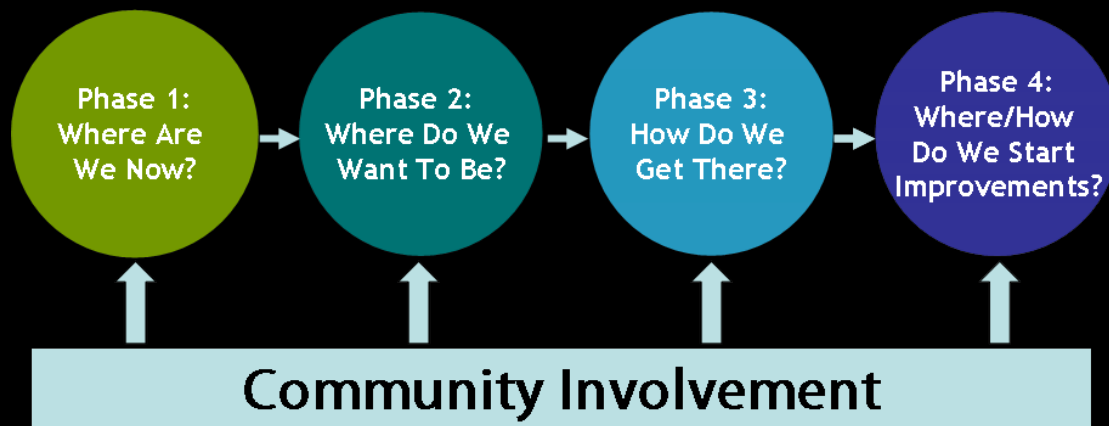

Completed

- TAG #1
- Initial community outreach
- Existing Resources
- Needs Analysis
- TAG #2 (Today)
- Update to Council COW (Today)

Still to Come

- Revise needs analysis
- Translating analysis to potential recommendations
- Staff update to CAP (September)
- Update to Council COW (October: strategic directions)
- Update to Council COW (November: draft plan)
- Plan review and adoption (January – February)

Community Involvement

- Community workshop
- Community leader focus group
- Education expert interviews
- Moving listening sessions
- National night out block party intercept
- Extended outreach
- Community questionnaire

Identified Key Needs

- Accessible and connected parks and recreational opportunities
- Walking and biking, health and wellness
- Socializing, gathering and a sense of community
- Opportunities for all
- Affordable and convenient opportunities

Strategic Plan Integration

- Opportunities for all
- Inviting and connected places
- A sense of community
- Health and wellness

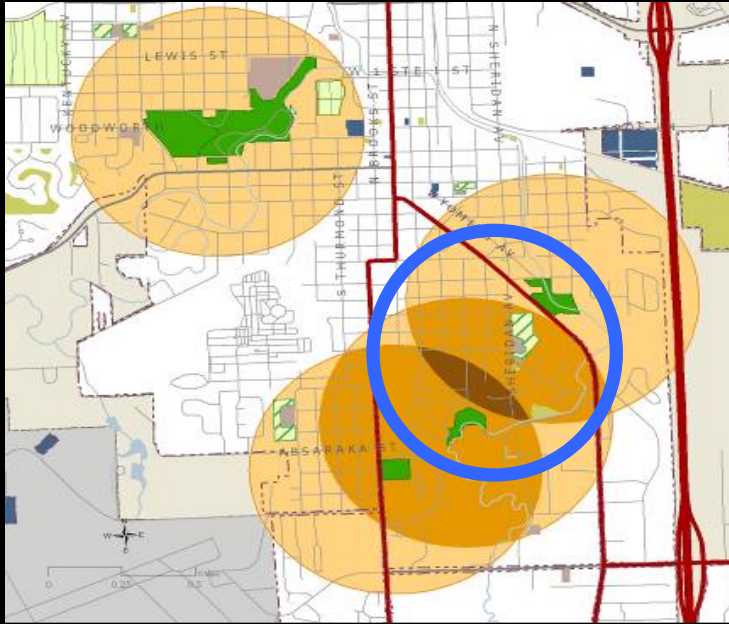

Reality Affects Travel Distance

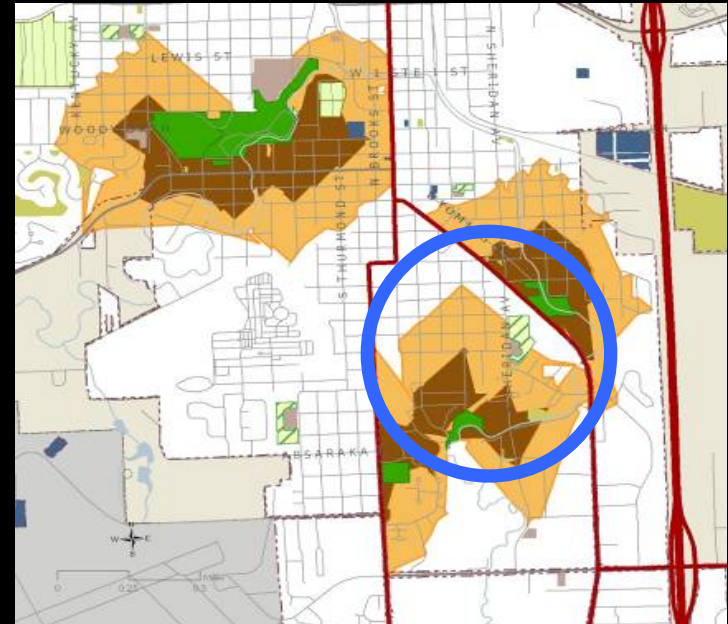

- Various factors affect travel distances to recreation facilities:
- Transportation network, including trails, sidewalks, crosswalks
- Barriers, such as major roadways, washes, railroads, property ownership

Traditional vs. GIS Access Analysis

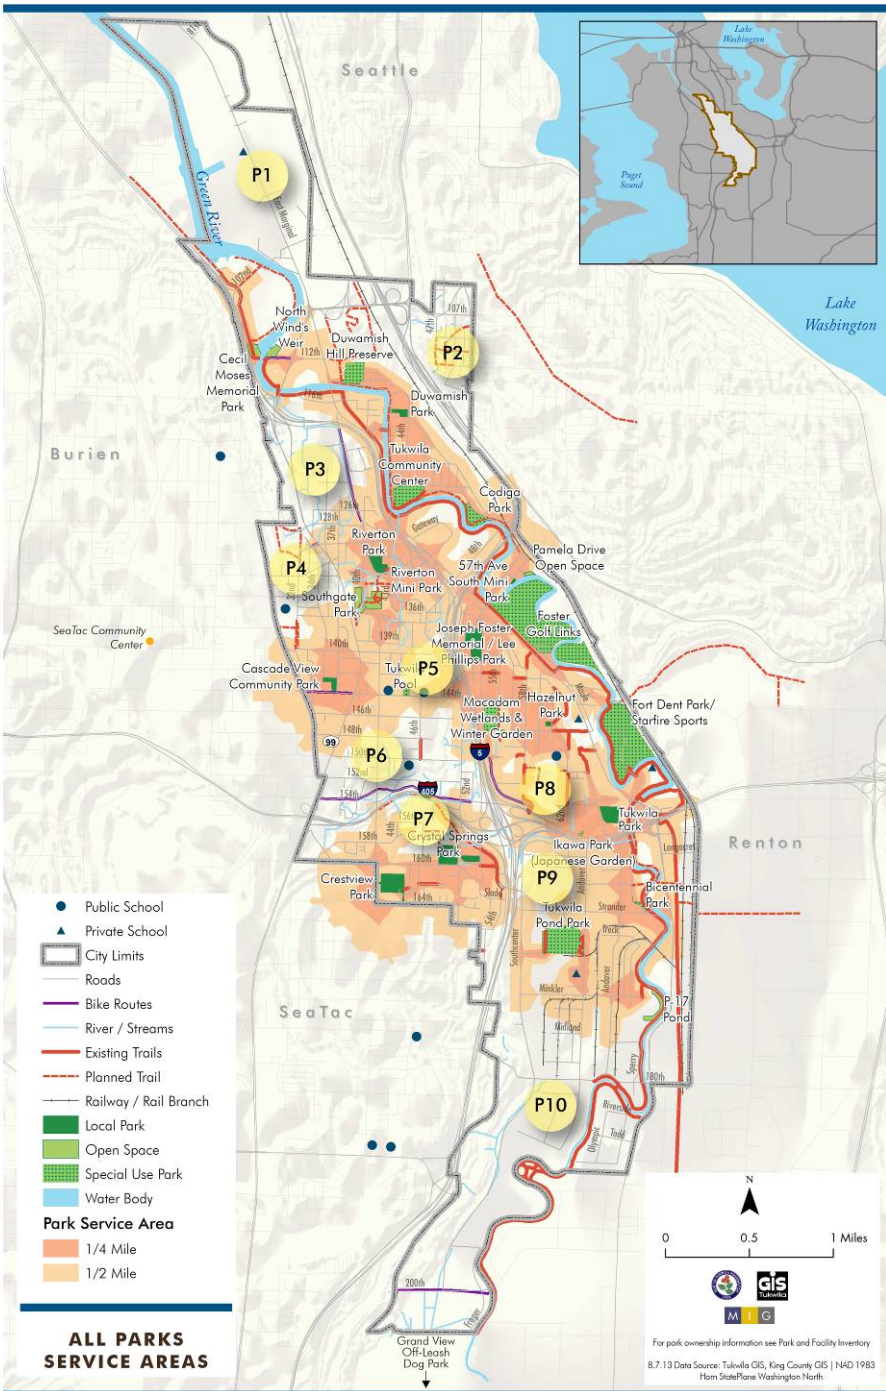

- Based on how the crow flies
- Does not address barriers
- Exaggerates park coverage

- Based on how people travel
- Considers barriers to travel
- Provides realistic look at park coverage

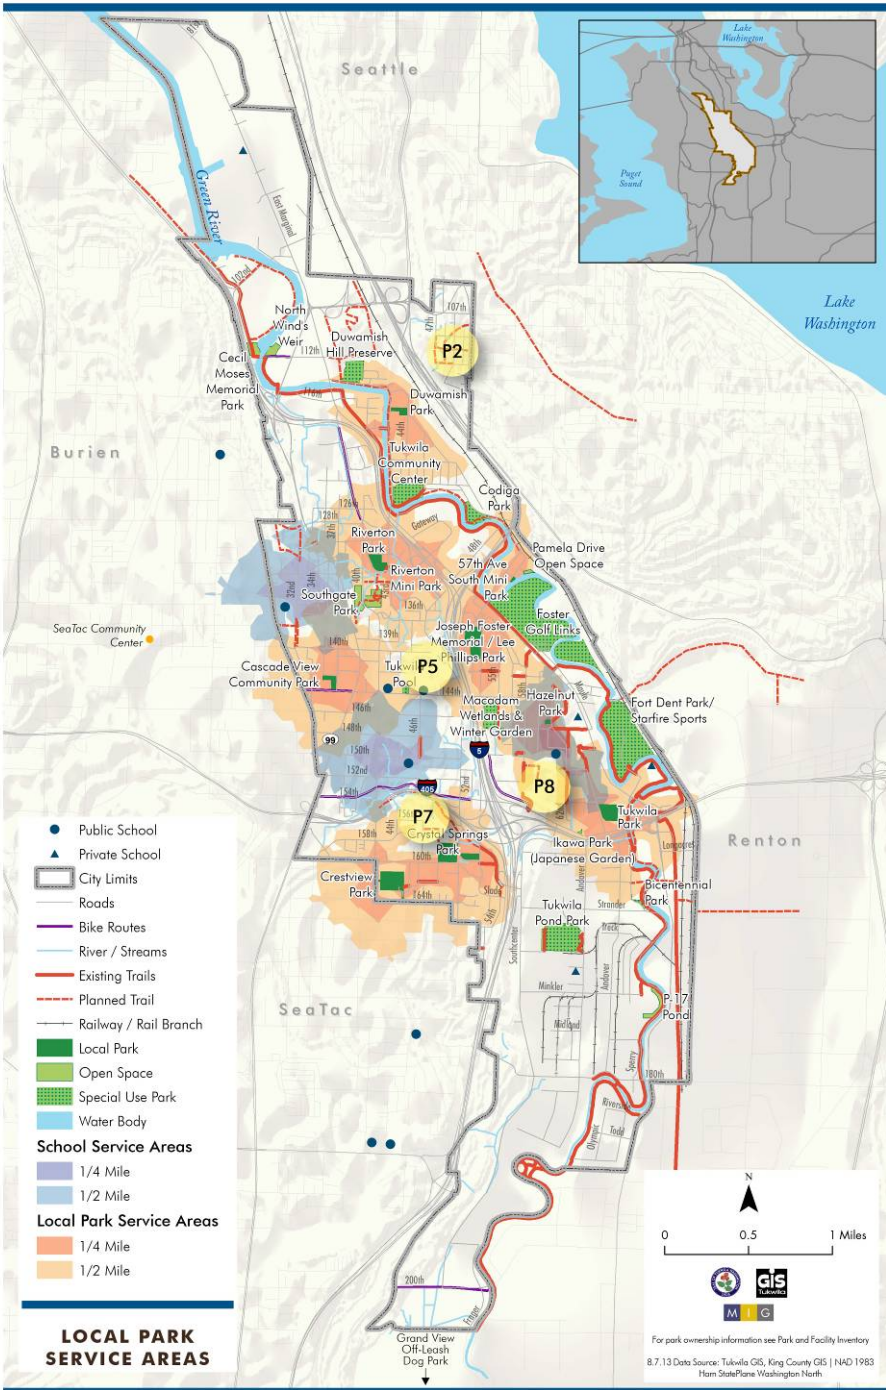

All Parks

- Non-residential gap areas
- Residential gap areas

Local Parks

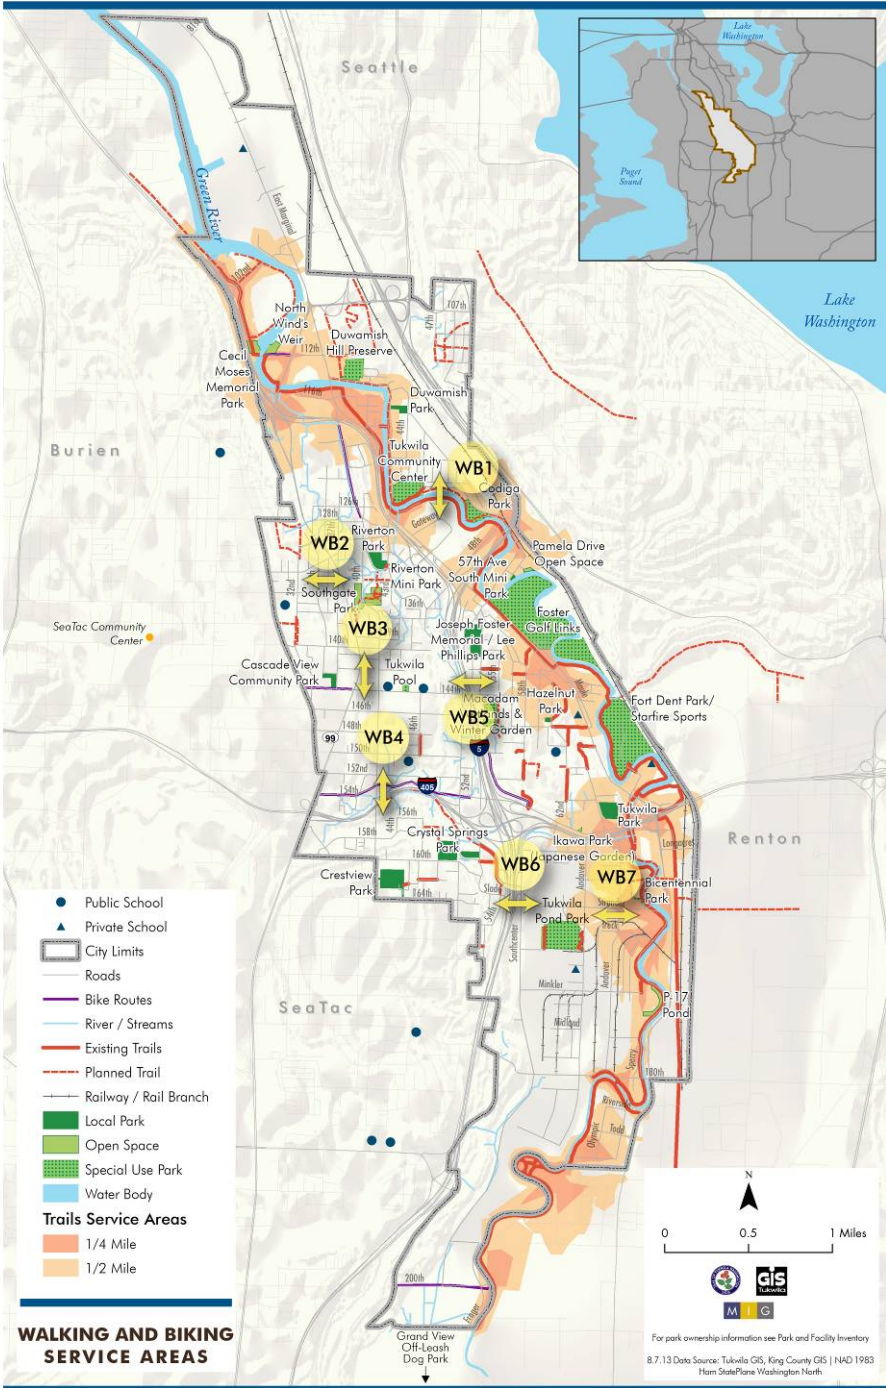

- Role of schools and school owned property
- P2 isolation
- Connectivity could extend park access

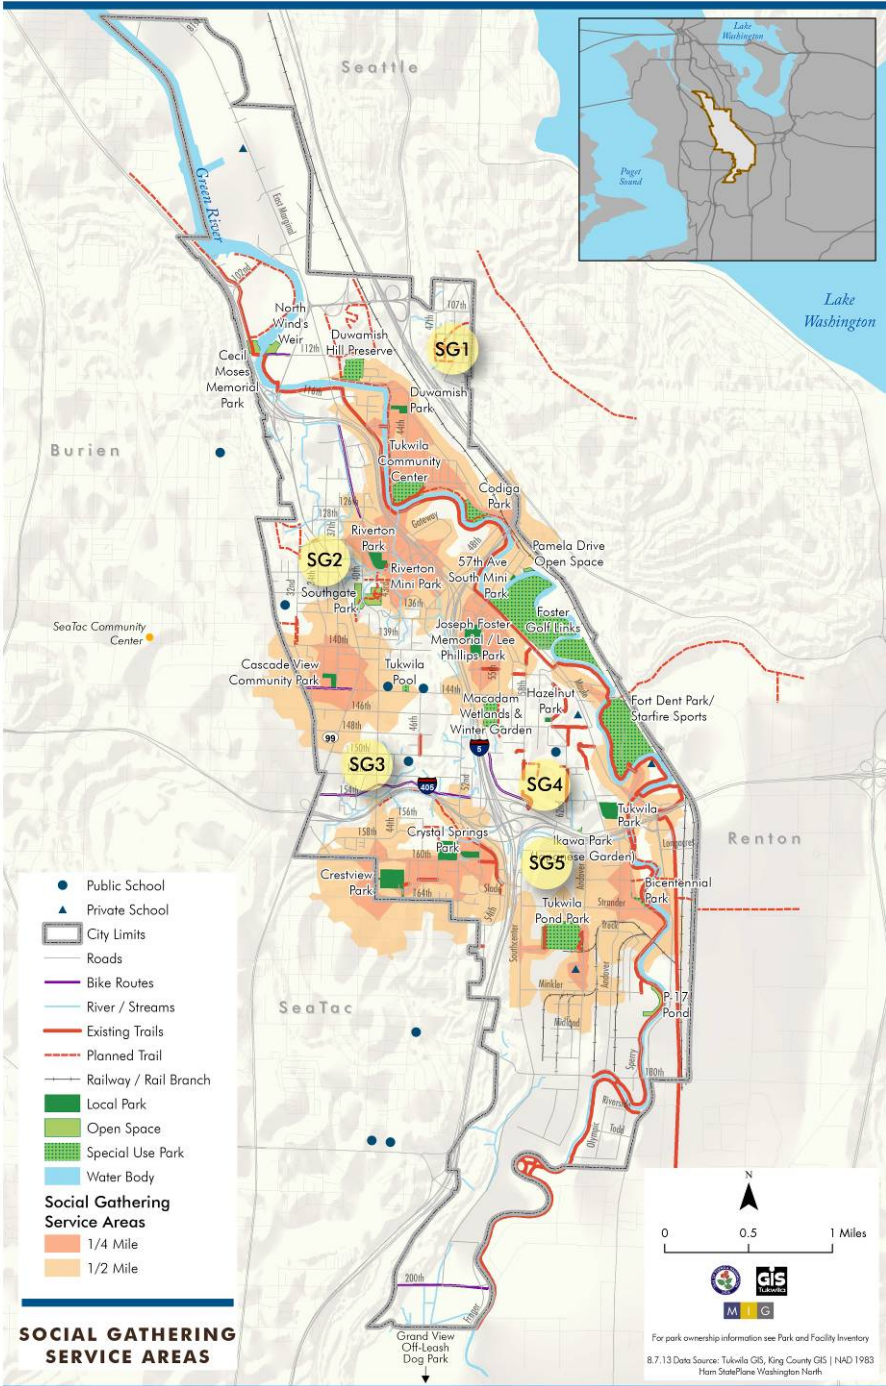

Activities: Access and Capacity

- Walking and Biking
- Social Gathering
- Organized Sports
- Unstructured Play

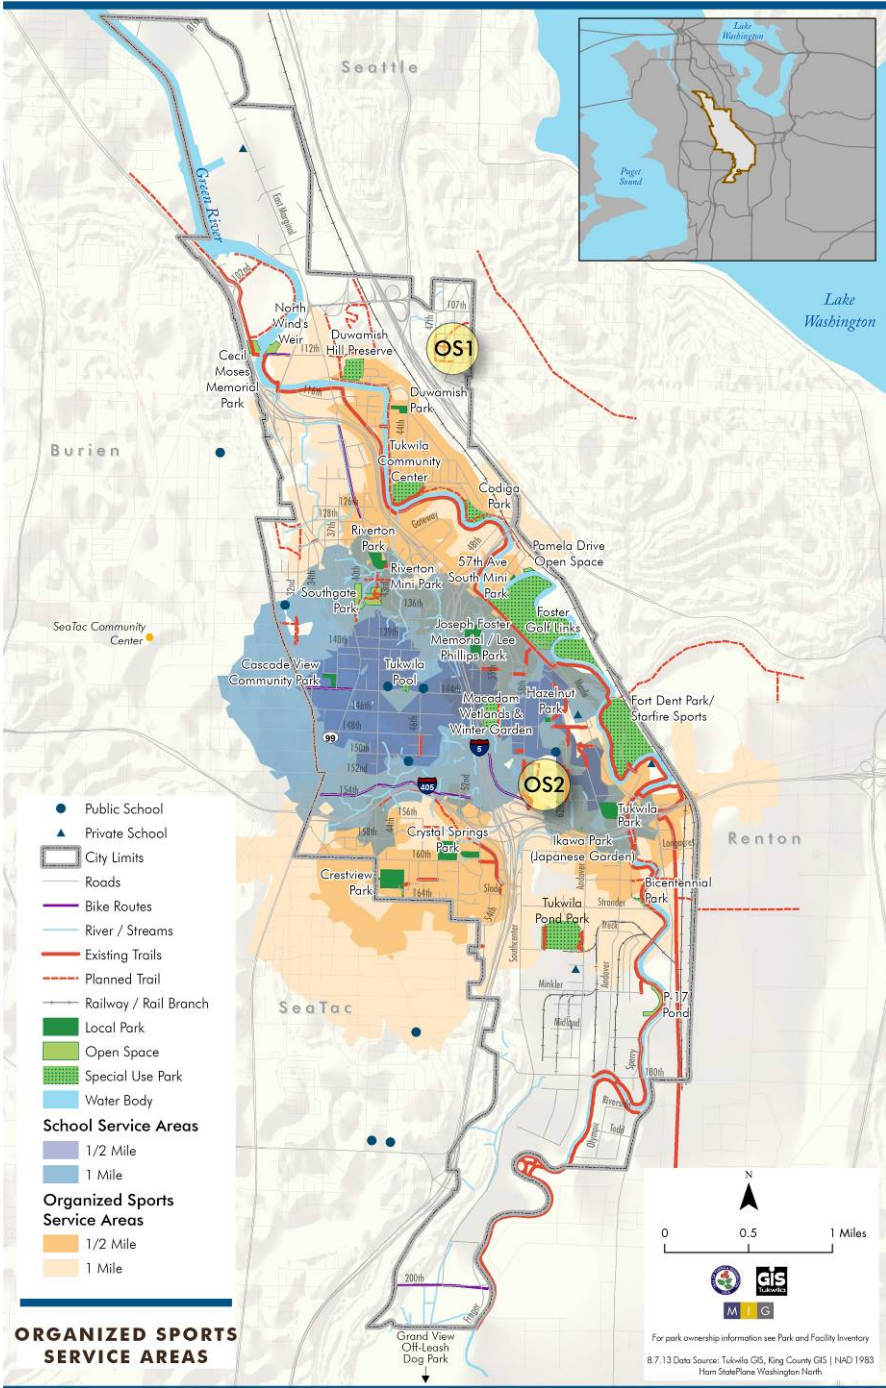

Walking and Biking

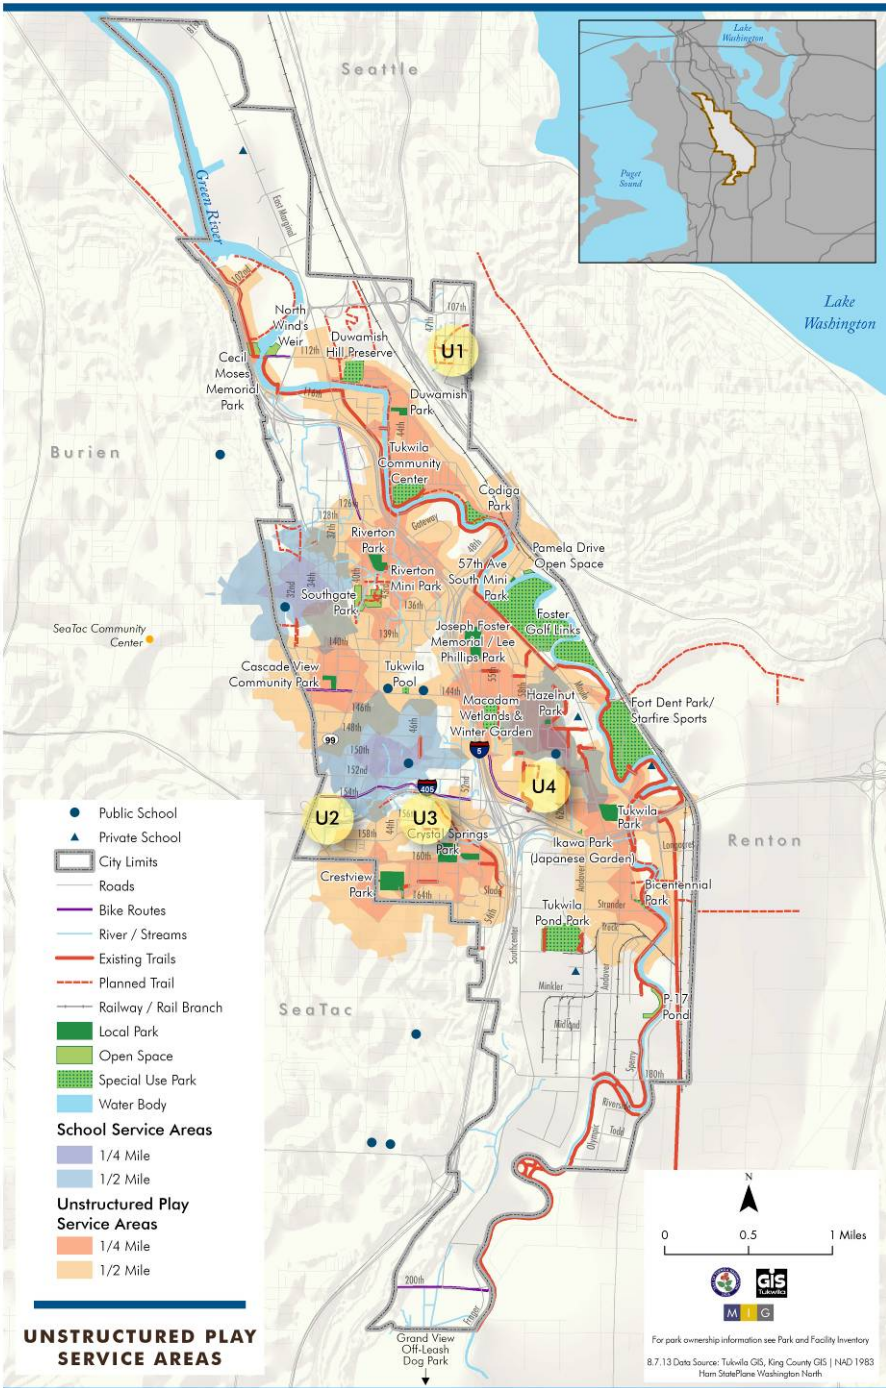

Social Gathering

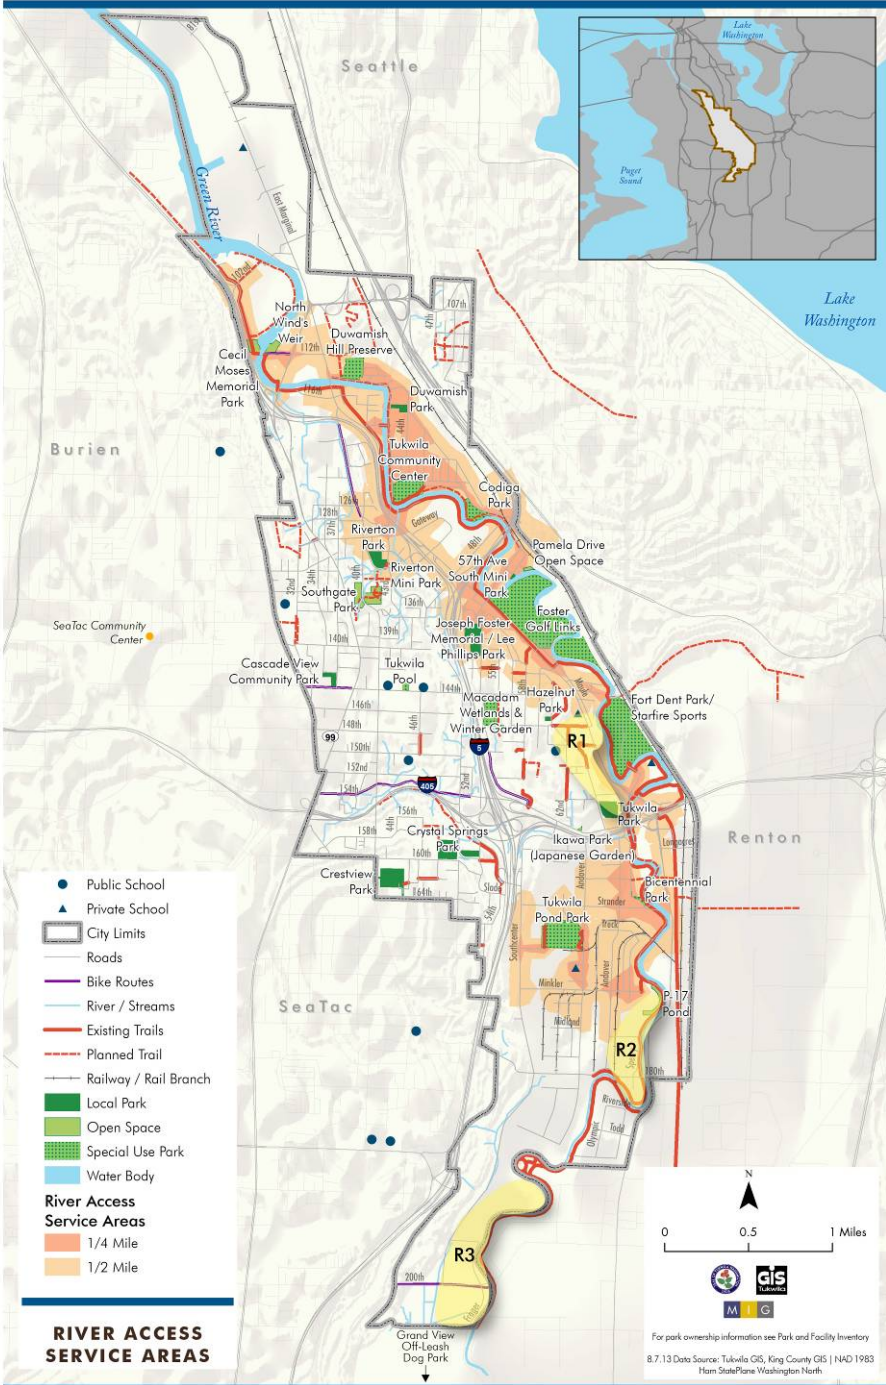

Organized Sports

Unstructured Play

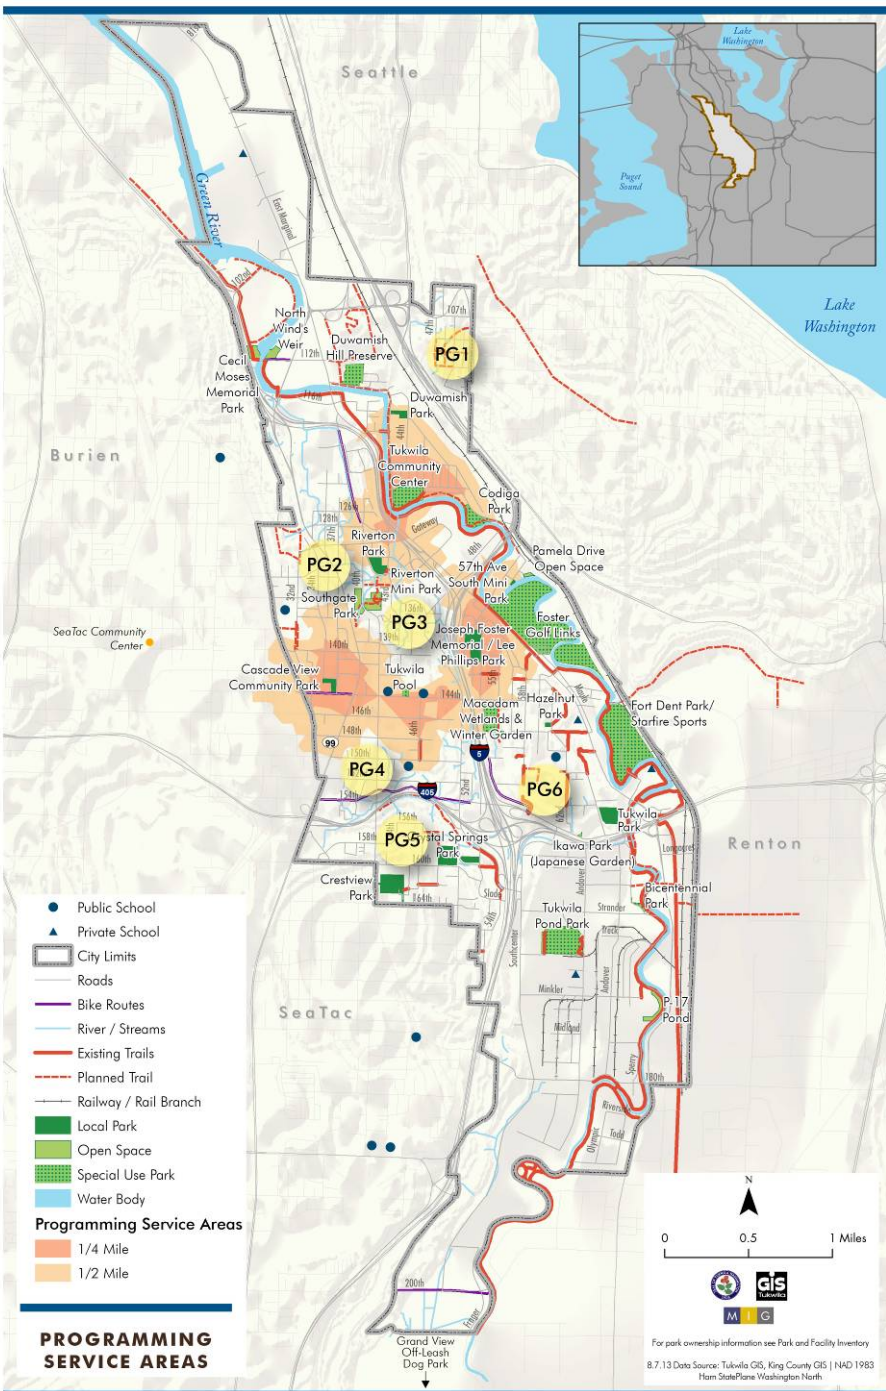

River Access

Recreation Programs

- Participation
- Cost recovery goals
- Program gaps
 - Demand
 - Awareness
 - Schedule
 - Affordability
 - Alternatives
 - Location

Implications

- Maximizing the Existing System
- Refining Service Goals for Programming
- Recognizing the Importance of Partners
- Fostering Ongoing Interaction within the Community
